

Disability and palliative care: Strengthening our work together

For the disability and palliative care workforce

With a focus on strengthening communication, collaboration and coordination, this full-day event will empower the audience to improve outcomes for individuals living with a disability and life limiting illness.

The program will include presentations, panel discussions and case studies covering:

- The challenges of accessing a dignified death for people with a disability.
- Access to excellent palliative care when living with a life limiting illness.
- Opportunities to improve workforce connection and collaboration.
